## Study in Malta

An alternative to the online programme is the availability of a more intensive blended learning programme in Malta. This involves additional onsite classes and is delivered in a shorter period of time.

Situated in the middle of the Mediterranean, the Maltese Islands have long been considered as the lifeline between Africa and Europe. This has led to the Islands being ruled by a succession of sovereigns, leaving their imprints on many facets of Maltese culture, ranging from the warm and welcoming character of the Maltese people to the entrepreneurial spirit of the Maltese businessperson.

Malta is a small island but smallness has its advantages. The small geographic size makes it relatively cheap, quick and easy to get around the island, especially with the many direct bus routes to and from various bus termini. Malta's proximity to other Schengen and EU countries and the numerous direct flight connections make it very easy to explore the Mediterranean region. Malta is packed with things to see and do. The country's thriving tourism industry has spurred on the development of its lively nightlife and cultural scenes, as well as a wide range of outdoor activities, from tennis and golf to paragliding and diving.

Advenio eAcademy, as the awarding body in collaboration with a number of Higher Educational Institutions, are offering a certified on-line Masters programme in Entrepreneurship. The programme is certified by the Malta Further and Higher Education Authority in Malta (MFHEA - www.mfhea.mt) and is equivalent to the Malta Qualifications Framework post-graduate Level 7 at 90 ECTS credits as per European Qualifications Framework.

The accreditation of the course provides the confirmation of European quality assurance and the automatic recognition of the course within the EU. The collaborating Higher Educational Institutions bring to the programme years of international experience at graduate level and include some very well-known European universities. This international involvement is what distinguishes the proposed programme most. It provides a uniquely European open approach to learning, focusing on the on-going development of best practices in the different fields related to entrepreneurship. The Level 7 Masters in Entrepreneurship programme is offered fully online, or via blended learning for residential students in Malta.
